Goethe Institut/Max Mueller Bhavan
University of Oslo,

SUMMARY

I am an artist and creative-technologist at the forefront of creative coding culture in India. Pioneering Algorave India, among the country's most popular outreach in creative technology communities. My career spans from being a filmmaker for award winning feature films, and contributing to and leading software technology projects to teaching multi-disciplinary courses and workshops at India's top institutions such as **IIM Ahmedabad, National Institute of Design at Gandinagar and Bangalore, BITS Pilani, and CEPT Ahmedabad.**

My creative practice and education demonstrates proven ability, and technical knowledge in planning and execution of all stages of media production, post production, and workflow design as well as tackling distribution, and business challenges

My hands-on skills include teaching in higher education, social media content creation, and strategy, cinematography, video editing, music production, graphic design, motion graphics, and web development, event curation/management/promotion, livecoded audio and visual performance on multiple platforms and computer languages.

Highlighted Experience

Visiting faculty for Sound Design and Creative Coding

- Unitedworld Institute of Design, Ahmedabad, (Feb - Mar 2026)
- University of Design and Innovation Technology, New Delhi (Apr 2026)
- CEPT University, Ahmedabad (2025 - 2026)

Visiting faculty for Computational Photography at New Media Inputs in Photography

- the National Institute of Design, Gandhinagar, India (2023 - 2024)

Visiting faculty at Avantika University

- Creative Coding and Physical Computing (Mar 2023 - Present)
- Sound Design (Aug 2023)

Visiting faculty at University of Allahabad

- Filmmaking and Video Production (May 2018 and 2019)

Co-Founder/Organiser/Curator/Community Leader, Algorave India

Algorave is a performance format and underground movement that revolves around the practice of live-coding to create music and visuals.

- Organised and curated India's first live coding festival, intercontinental livecoded jam, all womxn event, livestreamed VR event, and pioneering events in Mumbai, Delhi, Bangalore, Hyderabad and Pune
- **Performed live coded electronic music and multi-screen projection mapped visuals** at Mapping Festival, Geneva 2026, Festival X, Dubai, 2022, GitHub Universe 2020, GitHub Satellite India 2021, and GitHub Constellation 2022. Also participated in pioneering telematic performances featuring an intercontinental livecoding ensemble at ICLC 2019 and 2020, NIME 2021 (as part of a SuperContinent)
- Conducted livecoding and computation art workshops at design schools and independent community events across the country

- **Contributed a chapter in Livecoding: A User's Manual** published by MIT Press

- **Cinematographer / Technical Director, Fairy Folk (2022)**

  Mumbai, India — 2018 - 2022

  A magical realism independent feature film produced in a uniquely improvised method. The film premiered at Sydney Film Festival (2022), screened at Indian Film Festival Melbourne, and in competition at Chicago International Film Festival, and Indian Film Festival of Los Angeles

- **Cinematographer / Technical Director, Kshay (Corrode) 2012**

  Mumbai, India — 2008 - 2012

  A four year crowd-funded micro-budget independent feature film. Premiering at Chicago International Film Festival 2011 and winning various awards including, Best Director Award at the South East Asian Film Festival, New York, Jury Award at the Indian Film Festival, Los Angeles, Asian New Talent Award at Shanghai International Film Festival

  Official Selection

  South East Asian Film Festival, New York, Dubai International Film Festival, and Raindance Film Festival, London.

EDUCATION

Birmingham City University, United Kingdom
Master of Arts - Television Production — Sep, 2012 - Oct, 2013
Achieved a Commendation

School of Audio Engineering, Mumbai, India
Diploma in Sound Engineering — Jan, 2005 – Jan, 2006

Norway
McMaster University, Hamilton, Canada
Sastra University, Tanjore, India
TIFA Art Gallery, Pune, India

Eggfirst, Mumbai
Grey Digital, Mumbai
The Right Click, Mumbai
Webchutney, Mumbai

SKILLS & TECHNOLOGIES

Web and IT

- HTML / HTML5 (Advanced)
- CSS / SaSS / Less (Advanced)
- Javascript/ECMA Script/NodeJS (Intermediate)
- WebGL, WebXR (Intermediate)
- PHP 7/Laravel (Advanced)
- MySQL/Postgre SQL (Intermediate)
- Git (Intermediate)
- Docker/Podman (Intermediate)
- Web Video / Live Streaming

Video and Graphics

- Final Cut Pro 7 and X (Advanced)
- Adobe CC Suite (Advanced)
- Avid Media Composer (Experienced)
- Nuke/Fusion (Experienced)
- DaVinci Resolve (Some experience with tool generation)
- Blender (Experienced in Modeling/Texturing)

Maya Academy Of Advanced Cinematics, Mumbai, India
Diploma in Animation and Compositing — Oct, 2004 – May, 2006

Institute of Psychological and Educational Measurement Allahabad, India
Diploma in Graphic Design and Web Dev — Feb, 2000 – August, 2000

WORK EXPERIENCE

Software Developer/Project Manager, Graphics & Audio Guild Lead, InVideo.io

Mumbai, India/Remote — July 2021 - May 2022
InVideo is a browser based video editing app that allows users to produce video content with an interface accessible to non experts in the field. I founded the Graphics and Audio Guilds and led remote teams with individual contributors based in the UK, Japan, Brazil and Europe working on developing features like colour correction, realtime video effects and audio manipulation and mixing tools by leveraging web-gl and web-audio technologies.

Technical Director, SpotMyGadget.com

Mumbai, India — 2010 - Apr 2013
Spotmygadget.com was a web service that helped users select and find technology products such as smartphones, digital cameras, laptops etc. through an innovative 'decision engine' that translates usage scenarios into specifications.
I designed and programmed the core decision engine and architecture that delivered these features to the website. As a technical director, I also oversaw devops, feature development, engineering, front end development and overall production workflow of the site.

Technology Editor, Intelligent Computing Chip, Infomedia 18

Mumbai, India — Mar 2007 - Feb 2008

- Reported on news and trends in consumer electronics, and technologies in the games and entertainment sector
- Developed and maintained contacts in the games industry
- Co ordinated with PR companies, publishers, and distributors to get the latest products for review
- Wrote buying guides, reviews and features for computer components, games, and gadgets

Sound Engineer / IVR Project Manager, Hungama Mobile

Mumbai, India — June 2006 - Feb 2007

- Worked with content partners to select content to be developed for IVR
- Supervised development of scripts and prepared call flows
- Coached and co ordinated voice over artists
- Edited and processed recordings for call flows and client requirements
- Final packaging and delivery of content to various mobile networks.

Co-founder, 3rd Thought Entertainment

Mumbai, India — June 2007 - Feb 2010

- An amalgamation of an international community of digital artists, filmmakers and an independent record label.
- Organised experimental live music events at Bluefrog, Zenzi Mills, and Project 88

Workshops and Conferences

- **Lecture demonstration of live coding practices** at EyeMyth Media Arts Festival Mumbai (June 2026)
- **Patterns of Practice: Live Coding and the Logic of South Asian Traditional Music** at Audio Developer Conference, Bangalore (2026)
- **Performing with AI,** realtime machine learning techniques in collaboration with artist, researcher Manaswi Mishra from MIT, USA (2024) at Goethe Institute New Delhi
- **Lecture demonstration of live coding practices** at JS Conf, Bangalore (2023)
- **Live Coding: Collaboration, Learning And Decolonization** at International Conference on Arts and Humanities, Malaysia (2019)
- **Filmmaking workshops** for the rehabilitation of ex-addicts in the Narcotics Anonymous program, Birmingham, UK (2013 - 2015)
- **Mentoring multiple cohorts of students at** School of Media at **Birmingham City University,** UK (2013-15)
- **Talks on web technologies, DIY electronics, and electronic music** at Carnival of Electronic Creativity ’10, ’11 and ’12 hosted by The Academy of Electronic Arts, India

Audio and Music

- Ableton Live and Max/MSP (Advanced)
- Bitwig Studio (Expert)
- Adobe Audition / Sound Forge (Advanced Intermediate)
- Cubase / Nuendo (Advanced Intermediate)
- FL Studio (Advanced Intermediate)
- Logic / ProTools (Experienced)

INTERESTS

Acoustic Drums, Latin and Arabic hand percussion, with special focus on Funk, Progressive Rock, and Jazz Fusion

Avant garde acousmatic and electronic music production with custom handbuilt built electronics and software

Long distance cycling

Computer and console gaming with some experience with game design and community management

DIY Electronics and Physical Computing with popular ATMega, Expressif, Raspberry Pi, Nvidia Jetson, BeagleBoard based microcontrollers and single board computers

Spiritual healing with Reiki, and The Art of Living

FREELANCE EXPERIENCE

Artist/Producer, Collabscape at Future Landing, Serendipity Arts Festival, India
Online and Goa, India— December 2020, and December 2022
Collab-Scape, a generative interactive art piece that evolved with the visitor's presence in virtual and real rooms. The experience initially designed for the web version of Serendipity Art Festival's groundbreaking one of a kind exhibition, Future Landing, evolved to a roomscale installation at the festival in Goa, in 2022. I also produced the web platform that ran the exhibition for the 2020 and 2021 virtual editions of the festival.

Music Composer/Interactive Experience Designer, Metro Sonata, India
New Delhi, India — September 2019
An interactive art piece by Delhi based Architect and artist Ameet Singh that uses sounds from the Delhi Metro and reimagines them into a musical experience. I composed music on SuperCollider and in collaboration with engineer and interaction designer Praveen Sinha designed interactions for the installation. This was exhibited as part of the Five Million Incidents exhibition by Goethe Institute/Max Mueller Bhavan

Translator/Logger, Brainwashing Stacey - BBC Channel 3
London, UK — June 2016 - August 2016
One of a three part series featuring award winning BBC 3 presenter Stacey Dooley who visited Uttar Pradesh, India in the summer of 2016 to experience a life in Gulabi Gang.

Self Shooting Producer/Director, Checkdesk Promotional Video, Meedan
Phoenix, US — Feb 2015
Self shot production and direction of a promotional video for Checkdesk, an innovative user generated content verification platform featuring Eliot Higgins

Voices of War And Peace, Library of Birmingham
Birmingham, UK — Dec 2014 - Dec 2015
Filming and postproduction for documentation of various talks, exhibitions and events organised by the project exploring the hidden histories of the great wars of the 20th century.

E-learning Materials Producer, Birmingham City University
Birmingham, UK — October 2014 - June 2016
Produced distance learning materials for various departments at the university that were then shared on the university's Moodle network.

Director/Editor, India's Raw Star Microsite for Star Networks
Mumbai, India — August 2014
Directed videos for an interactive microsite that showcased contestants for a reality talent show hosted by the popular Indian Punjabi Rapper Honey Singh and commissioned by India's leading GEC.

Producer/Technical Director, Promos and Google Hangout with East India Comedy for OLX India.
Mumbai, India — July 2014
Production for a multi camera live stream with the popular Indian comedy collective that engaged with OLX customers that called in on phone networks and Google's video chat platform. The content was later edited to feature on the client's YouTube channel.

Producer/Editor/Motion Graphics, #WomenShould Social Media Campaign for Bajaj-Allianz
Mumbai, India — Mar 2014
A promotional video released on women's day to spread word about the women's rights campaign in the form of YouTube pre-rolls and media shared across social networks.

Producer/Director, Aston Martin GT4 Challenge 2013
Webisodes covering the Aston Martin GT4 challenge, travelling to prestigious race tracks in UK and Belgium for producing promotional videos of the race series. This was the live client brief for my final project commissioned by the sales and marketing department of the iconic British automobile brand. I recruited and mentored a multidisciplinary team of BA and MA students from School of Media and new media at Birmingham City University.

Direction, Editing, Graphics and Original Music, for Hasselblad UK
Promotional film for Hasselblad in collaboration with Bulgarian adventure photographer Vladimir Donkov. Commissioned to showcase their high-end medium-format cameras in the harsh environments of the Norwegian arctic, the video featured on the Hasselblad TV website, and Masters blog.
